

Instructions: Use this worksheet ahead of the Respiratory Syncytial Virus (RSV) Pre-Book period to prepare for the upcoming season. After completion, transfer this information to the Pre-Book form available in your myCAvax account. **DO NOT SUBMIT this worksheet to the VFC Program.**

Step 1

Review your seasonal RSV data to estimate how many VFC doses to order for the ENTIRE upcoming RSV season (October through March)

- Run usage reports (registry/EHR) for the past RSV season.
- Run patient population reports, by age and eligibility.
- Ensure that the number of doses pre-booked will be enough to immunize and protect all your VFC-eligible infants against RSV.

Document the number of VFC-eligible patients here.

< 8 months of age	8 - 19 months of age	Total VFC eligible infants

Step 2

Allocate Seasonal Doses by Age Groups Served and Brand Preference.

- Review available RSV products with practice clinicians and your organization to determine which product(s) to request.
- Based on your patient population, order products licensed for that specific age group.
- Pre-book ALL doses that will be needed for the upcoming season by brand.
- You will be allowed to pre-book both nirsevimab and clesrovimab products.

IMPORTANT: This is NOT your order for RSV monoclonal antibodies.

Product	Brand	# of Doses to Pre-book
Nirsevimab (Sanofi)	Beyfortus® 50mg; 0.5mL single-dose pre-filled syringe, 5 pack For infants < 8 months weighing < 5 kg and born during or entering their 1 st RSV season	
Nirsevimab (Sanofi)	Beyfortus® 100mg; 1mL single-dose pre-filled syringe, 5 pack For infants: • < 8 months weighing ≥ 5 kg and born during or entering their 1st RSV season • 8-19 months of age entering their 2nd RSV season	

Clesrovimab (Merck)	Enflonsia™ 105mg; 0.7mL single-dose pre-filled syringe, 10 pack For infants < 8 months of age born during or entering their 1 st RSV season	
Clesrovimab (Merck)	Enflonsia™ 105mg; 0.7mL single-dose pre-filled syringe, 1 pack For infants < 8 months of age born during or entering their 1 st RSV season	

*For detailed information on RSV dosage and recommendations, view the [RSV Immunization Fact Sheet \(PDF\)](#).

Step 3

Submit Your RSV Pre-Book in [myCAvax](#) when available.
